Press Note.

Progress Report of the Department of Agriculture for the month of August 1952.

I. *Opening of the Pilot Training* cum *Development Project.*—The Agricultural Extension Project Training Centre was inaugurated at Malavalli, Mandya District, on 11th August 1952, by Sri H. Siddaveerappa, Minister for Agriculture. This is one of the Schemes started in the country by munificent donation of the Ford Foundation. It is estimated to cost Rs. 5,52,000 spread over five years. Under this Scheme, about 105 villages will be benefited. The Scheme aims at linking agricultural research with the actual agriculturist by imparting him modern methods of agriculture. It also envisages an all-round improvement in the life of the agriculturist and his family by providing him facilities and knowledge which would help him to produce more food and raise his standard of living.

II. *Season and Crop Conditions.*—The rainfall as recorded throughout the State during the month of August was meagre. Though excess rainfall was recorded in Chickmagalur and Shimoga districts, the distribution of rainfall was not even in all the taluks. Rainfall was very much inadequate in Shimoga, Bhadravathi, Channagiri, Honnali and Shikaripur taluks of Shimoga District and Tarikere, Chikmagalur and Kadur Taluks of Chikmagalur District. The rainfall in Kolar, Tumkur and Chitaldrug districts was insufficient.

The standing crops of Ragi, Paddy, Sugarcane, Cotton and Jola were reported to be generally progressing well in Mysore, Shimoga, Bangalore, Chikmagalur, Hassan and Mandya districts. On account of failure of rains, insufficient rainfall and the consequent belated sowing in Kolar, Tumkur and Chitaldrug districts, the crops were in different stages of growth.

III. *Damage to crops by Pests and Diseases.*—Minor incidence of pests on Ragi, Paddy, Jola, Potatoes and Vegetables were noticed and prompt action was taken by the Departmental staff to control the same. Paddy blast

663

in Bhadravathi, Shimoga and Shikaripur area was of a severe nature. Mealybugs and Leptispa pests caused noticeable damage in Anavatti of Sorab taluk and in Shikaripur taluk. In many places in Chitaldrug taluk, there was attack of aphids on groundnut crop. Timely measures were taken to check the further spread. Cut-worm attack on Ragi nurseries was controlled by treating with Gammexane and Sodium Sylicofluride. Grasshopper was noticed in Chellakere taluk and it was controlled by using Gammexane dust. During August a sum of Rs. 100 was provided to each of the District Officers for undertaking demonstrations on plant protection on a wider scale.

Hassan District.

IV. *District Work.*—Through the efforts of the Department, a 'Krishi Sangha' (Agricultural Association) was formed. Its inaugural ceremony was performed by the Minister for Agriculture. The object of the Sangha is to make the student population "Agriculture-minded" and impart learning through vocation and craft, one of the long-cherished objectives to be brought about in the educational policy of the country. The Union Deputy Minister for Food, who paid a visit to Hassan, was impressed with the activities of the Sangha and expressed that the example of the Sangha was worth copying on an All-India basis when starting a Land Army.

Shimoga District.

The Departmental staff was actively engaged in the distribution of seeds, manures and implements and in the activities of the Extension Service. Five hundred and six pallas of improved strains of paddy and 87 pallas of improved varieties of ragi were distributed. Sprayers and chemicals worth Rs. 11,265 were also distributed. New crops like Pine Apple (new variety), Malabar pepper cuttings, Elephant yam, Sweet Potatoes and Tapioca were introduced in Magavalli, Kundapur and Devangi villages of Thirthahalli taluk. Arrangements have been made to supply 200 Tiptur coconut seedlings to the ryots of Thirthahalli taluk.

Chitaldrug District.

Relief works were in progress in Molakalmuru, Chitaldrug, Hiriyur and Jagalur taluks. Free movement of foodgrains was not so much visible during the month, as was during the preceding month. Scarcity of fodder and water was felt in all the taluks. Three hundred compost pits were brought into service and 135,050 cubic feet of compost manure was manufactured.

Tumkur District.

Demonstration of compost work was conducted in many villages to impress upon the ryots the value of compost manufacturing by pit methods. During the month the Union Deputy Minister for Food accompanied by the Minister for Revenue, visited Madhugiri, Sira, Koratagere and Tumkur taluks and inspected the areas affected by the scarcity conditions.

Kolar District.

Seeds were issued by the Department for laying out demonstration plots and seed nucleus plots. One hundred and sixty pallas of ragi and 136 pallas of paddy seeds were made available to the ryots. The Union Deputy Minister for Food toured in the affected areas of Mulbagal, Bagepalli, Bangarpet, Gudibanda and Chikballapur taluks and inspected the Famine Relief Works. The Minister for Revenue and Minister for Local Self-Government also visited the famine areas.

Mysore District.

The American varieties of Jola such as Plainsman, Martin, Pink-kaffar and Bonita grown in the fields of ryots on the demonstration scale had come up very well. The seeds were supplied by the Department and the crop attracted the attention of a large number of farmers. These varieties are known for drought resistance and they are also of short duration type. They were harvested during the month.

Demonstration plots of paddy 1092, Baroda paddy, Ragi H22. RO, 009 and RO. 862 and H.S. Castor were laid out. 1092 paddy variety which is a new strain, is coming up very well and gaining a good deal of popularity. E22 and E.S. 11 varieties of Ragi have also been distributed to serve as seed plots for procuring seeds for further distribution.

Wide propaganda was carried out to enlist competitors for crop competition on paddy and cotton M.A. 5. As a part of the activities of the Agricultural and Experimental Union, nine Agriculturists' Associations were formed to promote the interests of the agriculturists.

V. *Work of Scientific Sections.*—(a) *Sugarcane Research Section.*—Under a Scheme financed jointly by the Government and the Indian Central Sugarcane Committee, research on sugarcane, with particular reference to breeding and testing of new improved varieties of sugarcane is being done.

Several of these new varieties have been released in earlier years and some of them have gained much popularity—H.M. 661 in Bangalore and Mysore districts; H.M. 645 in Channapatna; and I.C. 26 in and around Belur. During this year, the Department is offering two more varieties CO. 417 and I.C. 136 to interested cane-growers. They are requested to place their indent to the Sugarcane Research Officer, Department of Agriculture, Seshadri Road, Bangalore-1, through the Assistant Directors of Agriculture of their respective districts.

I. C. 136 is a vigorous variety and gives an yield of 40 tons or more of millable cane under good management. It is an early variety and ripens in about 10 months and possesses rich juice with a sugar content of 20 per cent; it also gives jaggery of good quality. C.C. 417 is a cane evolved at Coimbatore and is vigorous and high yielding, giving 40 tons or more per acre. It ripens in about 13-14 months and yields good jaggery. Different soil conditions require different varieties for producing maximum yields and a variety suited to one locality is not necessarily good for another. Hence, cane-growers would be well advised to test the new varieties under their conditions so that they will be able to find varieties most suited to their fields.

(b) *Meteorological Section.*—Meteorological observations showed that the month of August passed with a dry weather throughout the first two weeks. In spite of this being usually the rainiest month, August was dry for first three weeks. The scattered showers were received later. The average wind velocity for the month observed was 22 to 27 miles per hour. The crop-weather observations on sugarcane were in progress in Visvesvaraya Canal and Babbur Farms.

VI. *Visitors.*—Sri M. V. Krishnappa, Deputy Minister for Food, arrived in Mysore State, on 13th August 1952, accompanied by Sir Datar Singh, Vice-President, Indian Council of Agricultural Research and Sri R. S. Krishnaswamy, Director-General of Food Supplies, on an official visit to study at first hand the conditions in the distress areas in Kolar, Tumkur and Chitaldrug districts. He toured in Bangalore, Kolar, Tumkur, Chitaldrug, Shimoga and Hassan districts and acquainted himself with conditions prevailing in the State. He also inspected the distress relief works in the State and promised to render all possible help to get over the distress conditions.

(P.N. No. 147—18-11-1952).

Press Note.

A news item has appeared in the "Indian Express" of Madras in its issue dated the 24th October 1952 to the effect that over 132 people had died during the previous fortnight as a result of eating forest leaves and roots in a number of villages in Mulbagal Taluk. This news item is featured with prominent headlines to the effect "Over 130 famine deaths in Kolar—Report to the Relief Committee." It is noticed that the effect of the head lines is to convey an impression that the people had died of starvation.

Enquiries made have shown that the report as featured is altogether incorrect. Owing to a sudden outbreak of Cholera in the interior villages of Mulbagal Taluk, 84 deaths occurred in the several villages of Mulbagal Taluk as against 132 deaths mentioned in the news item. The deaths were not due to starvation as suggested by the head lines. It is regretted that a responsible Daily Newspaper like the "Indian Express" should have featured the news item in such a way as to give a wrong impression that the deaths were due to starvation.

Prompt action has been taken to combat the epidemic of Cholera and the situation is now fully under control.

Canvassing for Appointments on behalf of Candidates.

Attention of candidates applying for posts in response to the notifications issued by the Commission from time to time is drawn to the following warning contained in these Notifications :—

"*Applicants are warned that any attempt at personal canvassing will result in disqualification.*"

In this connection, the Commission desires to observe that it has become the practice for some candidates or their well-wishers to seek interviews with the Members of the Commission prior to their selection apparently with the object of gaining the support of the Members of the Commission. Public men, including Members of the Legislature, have also sometimes tried to speak to the Members of the Commission on behalf of some candidates. The Chairman and Members have time and again made it clear to those who seek such interviews that such canvassing is more likely to go against the interests of the candidate than in his favour.

The Commission now desires to make it known to all who seek employment in Government Service and to their well-wishers that any attempt by them or on their behalf to bring influence to bear on any Member of the Commission either personally or by letter will be viewed with the utmost severity and that the Commission will not hesitate to take the extreme step of disqualifying such candidates.

It is earnestly hoped that the candidates and their well-wishers will give heed to this warning and thus enable the Commission to discharge its duties unhampered.

Press Note.

Coronation of Her Majesty Queen Elizabeth II, London, June 2, 1953.

The Government of India desire to bring to the notice of intending visitors to the United Kingdom during the period April to September 1953 that on account of the Coronation of Queen Elizabeth II which is expected to take place in London on 2nd June 1953, there is great demand for accommodation in and around London. It is understood that all first class hotels have already been fully booked for some weeks prior to and some weeks subsequent to the date of the Coronation.

It is expected that before long, all possible accommodation in hotels, guest houses and private houses in and around London to a distance of 50 miles will all be taken up by intending visitors to London on this occasion. Though the Indian Services Club has been reserved for officials proceeding to London from India, it is considered that this will barely meet a fraction of the number of such officials actually visiting London. In addition to this, there will be a heavy rush of non-official visitors.

In order to avoid disappointment or serious difficulties to all official and non-official visitors to London, the Government of India suggest that they should take particular care with their travel agents to get a positive assurance about the accommodation reserved before venturing on the trip to London.

It will also be necessary to make specific arrangements for the return journey either by sea or by air as the consequences of being held up in the United Kingdom for want of shipping accommodation will be very serious unless the party is sufficiently strong financially and otherwise to prolong the visit.

Intending visitors to London from Mysore State, either for attending the Coronation or for any other purpose, are requested to take the foregoing factors into consideration before making their plans.

HEALTH OF LIVESTOCK IN MYSORE STATE DURING OCTOBER, 1952.

In their order of severity, outbreaks of Rinderpest, Blackquarter, Haemorrahagic-septicæmia, Anthrax, Ranikhet, Gastro-entritis, Sheep-pox, Contagious-goat pleuro-pneumonia and Foot and Mouth were encountered in the State during October 1952. Altogether 157 villages were reported to have been affected by one or the other of the several contagious and infectious diseases as against 167 villages during the previous month. The number of outbreaks was highest in Mandya, Bangalore and Shimoga districts, while Chitaldrug, Chikmagalur and Hassan districts were least affected. These diseases accounted for 556 attacks, of which 427 succumbed. The departmental staff conducted 6,058 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease. In the absence of a reliable method of vaccinatory intervention other prophylactic measures were adopted against Foot and Mouth disease.

Three outbreaks of Rinderpest were registered in Bagepalli taluk accounting for 11 attacks among cattle, of which six succumbed. Prompt measures of control were undertaken by the department to check its spread and 504 cattle were protected against this disease. The disease appears to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 109 villages accounting for 28 deaths as against 118 villages accounting for 41 deaths during the previous month. The special staff attached to the parasitic disease control units of the department dosed 8,503 animals as against 7,487 animals during the previous month.

Due to widespread rains all over the State during the month, scarcity of drinking water to the livestock was removed. Fodder continued to be supplied to all the depots opened in the affected areas from Mandya district. A large number of cattle were grazing in the several forests of Mysore, Chikmagalur and Shimoga districts. At the close of the month, the fodder position improved and there is less need for anxiety.

(HEALTH OF LIVESTOCK DURING OCTOBER 1952).

In their order of severity, outbreaks of Rinderpest, Blackquarter, Hæmorrhagic-septicæmia, Anthrax, Ranikhet, Gastro-entritis, Sheep-pox, Contagious-goat, Pleuro-pneumonia and Foot and Mouth were encountered in the State during October 1952. Altogether 157 villages were reported to have been affected by one or the other of the several contagious and infectious diseases as against 167 villages during the previous month. The number of outbreaks was highest in Mandya, Bangalore and Shimoga districts, while Chitaldrug, Chikmagalur and Hassan districts were least affected. These diseases accounted for 556 attacks of which 427 succumbed. The departmental staff conducted 6,058 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease. In the absence of a reliable method of vaccinatory intervention other prophylactic measures were adopted against Foot and Mouth disease.

Three outbreaks of Rinderpest were registered in Bagepalli Taluk accounting for 11 attacks among cattle, of which 6 succumbed. Prompt measures of control were undertaken by the department to check its spread and 504 cattle were protected against this disease. The disease appears to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 109 villages accounting for 28 deaths as against 118 villages accounting for 41 deaths during the previous month. The special staff attached to the parasitic disease control units of the Department dosed 8,503 animals as against 7,487 animals during the previous month.

Due to widespread rains all over the State during the month, scarcity of drinking water to the livestock was removed. Fodder continued to be supplied to all the depots opened in the affected areas from Mandya District. A large number of cattle were grazing in the several forests of Mysore, Chikmagalur and Shimoga districts. At the close of the month, the fodder position improved and there is less need for anxiety.

Canvassing for Appointments on behalf of Candidates.

Attention of candidates applying for posts in response to the notifications issued by the Commission from time to time is drawn to the following warning contained in these Notifications :—

"*Applicants are warned that any attempt at personal canvassing will result in disqualification.*"

In this connection, the Commission desires to observe that it has become the practice for some candidates or their well-wishers to seek interviews with the Members of the Commission prior to their selection apparently with the object of gaining the support of the Members of the Commission. Public men, including Members of the Legislature, have also sometimes tried to speak to the Members of the Commission on behalf of some candidates. The Chairman and Members have time and again made it clear to those who seek such interviews that such canvassing is more likely to go against the interests of the candidate than in his favour.

The Commission now desires to make it known to all who seek employment in Government Service and to their well-wishers that any attempt by them or on their behalf to bring influence to bear on any Member of the Commission either personally or by letter will be viewed with the utmost severity and that the Commission will not hesitate to take the extreme step of disqualifying such candidates.

It is earnestly hoped that the candidates and their well-wishers will give heed to this warning and thus enable the Commission to discharge its duties unhampered.

MISCELLANEOUS DEPARTMENTS.

OFFICE OF THE COMPILER, *MYSORE GAZETTE*, BANGALORE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matters intended for publication in Parts I, II, III, IV, V and VI should therefore reach this office not later than *Monday Evening*, and that for Part II not later than *Tuesday Evening* for the following Thursday's issue of the Gazette. All matters received later than these days will be kept by for insertion in the following issue of the Gazette. (G. O. No. P. 988-1040—P. & S. 12-30-2, dated 26th July 1930.)

2. (i) Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its re-setting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect stating the number of copies should be made at foot of such manuscript.

(ii) Indents for less than 100 spare copies should not be sent to the Press, subject to the exceptions contained in G. O. No. G. 14330-95—P. & S. 5-19-9, dated 23rd December 1919 in regard to notices calling for tenders for the purchase of stores or for the execution of works. When a few copies only are required, they may be made available by the use of carbon sheets simultaneously with the preparation of a copy for the Gazette, as laid down in the above Government Order. (Letter No. G. 10382—P. & S. 9-37-2, dated 30th June 1938, received from the Secretary to Government, Development Department.)

(iii) When indents for an unusually large number of spare copies are sent, such instances will be brought to the notice of Government, as per letter No. G. 10382—P. & S. 99-37-2, dated 30th June 1938, received from the Secretary to Government, Development Department.

3. Matter sent for insertion in the Gazette will be published *only once* and the abstract in two issues. (G. O. No. G. 2915-6—P. &. S. 44-25-2, dated 13th September 1926).

Such subscribers will please note that the Gazette cannot be had *in separate parts* at concession rates under any other conditions and that they have to pay the full subscription for the part or parts required.

6. Notification No. 7110—52-53 *P.S.C.* 34-52-9, *dated* 24*th November* 1952.

Canvassing for Appointments on behalf of Candidates.

Attention of candidates applying for posts in response to the notifications issued by the Commission from time to time is drawn to the following warning contained in these Notifications :—

"*Applicants are warned that any attempt at personal canvassing will result in disqualification.*"

In this connection, the Commission desires to observe that it has become the practice for some candidates or their well-wishers to seek interviews with the Members of the Commission prior to their selection apparently with the object of gaining the support of the Members of the Commission. Public men, including Members of the Legislature, have also sometimes tried to speak to the Members of the Commission on behalf of some candidates. The Chairman and Members have time and again made it clear to those who seek such interviews that such canvassing is more likely to go against the interests of the candidate than in his favour.

The Commission now desires to make it known to all who seek employment in Government Service and to their well-wishers that any attempt by them or on their behalf to bring influence to bear on any Member of the Commission either personally or by letter will be viewed with the utmost severity and that the Commission will not hesitate to take the extreme step of disqualifying such candidates.

It is earnestly hoped that the candidates and their well-wishers will give heed to this warning and thus enable the Commission to discharge its duties unhampered.

ASSISTANCE FROM THE CENTRAL SILK BOARD, GOVERNMENT OF INDIA, FOR IMPROVEMENT OF SILK.

The Central Silk Board, a Statutory Body, set up by the Government of India for improvement of the Indian Sericultural Industry, considered several subjects which came up before them during the first session at Bombay on 25th November 1952. Many schemes that were proposed by the Provincial Governments were scrutinised in detail. The Government of Mysore have been given the following grants :—

(1) Rs. 25,400 for the Graft Nursery Scheme during 1951-52 and Rs. 10,000 during 1952-53.
(2) Rs. 40,500 for the Silk Worm Nutrition Scheme during 1951-52 and Rs. 12,000 during 1952-53.
(3) Rs. 25,000 for starting Voluntary Cocoon Markets during 1950-51.
(4) Rs. 6,700 for starting a Statistical Section during 1952-53.
(5) Rs. 3,000 for the import of Japanese mulberry saplings during 1952-53.
(6) Rs. 46,000 for establishment of Sericultural Research Institute.
(7) Rs. 6,750 for deputation of Officers to Japan for study of Sericulture Industry and Research during 1952-53.

In the cost of production of cocoons, cost of mulberry leaves forms nearly 75 per cent of the cost. In Mysore, rainfed gardens yield about 4,000 lbs. of leaves and irrigated gardens about 10,000 lbs. of leaves per acre per annum. Experiments conducted in Mysore for over 15 years have yielded valuable results. It was found that graft using Mysore variety as stock and Japanese variety called "Kæryo Nezumi Gæshi" as 'Scion' yielded as much as 30 to 40 per cent more than the pure Mysore variety, which is not popular in Mysore. These experimental results were put on a field scale with the assistance of grants sanctioned by the Central Silk Board, *viz.*, Rs. 25,400 during 1951-52 and Rs. 10,000 during 1952-53. About 40,000 grafts have been prepared in the Nurseries under the Kanva Reservoir in Bangalore District. About 20,000 grafts have already been distributed.

Valuable experiments have been conducted in the Indian Institute of Science, Bio-Chemistry Department, on the protein requirements of the silk worm. The Central Silk Board granted a sum of Rs. 40,500 since the inception of the scheme in 1950-51. An additional sum of Rs. 12,000 has been sanctioned for 1952-53.

With a view to popularise fair trading in cocoons and to restrict the same in relation to silk prices, it was proposed to start 3 Cocoon Markets in Mysore State. The Central Silk Board gave a grant of Rs. 25,000 for the scheme. One cocoon market has been working in Ramanagaram, Bangalore District. Extension of such markets is contemplated when the scheme is found to be successful.

The compilation of useful statistics is being done by the Sericulture Department all along. It is now proposed to consolidate and give a scientific interpretation to the data thus collected by starting a Statistical Section attached to the Office of the Director of Sericulture. The Central Silk Board have sanctioned a lumpsum grant of Rs. 6,700.

The Central Silk Board imported mulberry saplings of the variety called 'Kæryo Nezumi Gæsh' in 1949-50 and 1950-51 from Japan. The percentage of saplings received in good condition on both occasions was about 10 per cent of the imported saplings. This variety does not lend itself to propagation by cuttings. Experiments conducted in Chennapatna and Mysore have indicated that layering or inarching is a successful method for propagation of this foreign variety in India. The time required for inarching is more than 18 months and propagation cannot be done quickly enough for the increasing demand for grafts. The Central Silk Board has sanctioned a grant of Rs. 3,000 for import of this new variety.

Government sanctioned the starting of Sericultural and Botanical Sections of the proposed Mysore Sericultural Research Institute at a cost of Rs. 4 lakhs, subject to the receipt of half the grant from the Central Silk Board, Government of India. Although the Board was at first unable to set apart the funds for this purpose, Government started the Sericultural Section as a beginning. The Central Silk Board have now allotted Rs. 46,000 for starting Sericultural and Botanical Sections of the Institute.

The Central Silk Board has allotted a grant for the deputation of four officers for study in advanced countries of which Mysore gets its quota of one Officer, subject to moiety of the expenditure being met by the Government of Mysore.

The Home Minister of the Government of Mysore attended the Standing Committee Meeting of the Central Silk Board. The Director of Sericulture attended the Technical Development Committee Meeting.

OFFICE OF THE SECRETARY, STORES PURCHASE COMMITTEE, "UNITED INDIA" BUILDING, BANGALORE.

Dated 13th December 1952.

To

All the Indenting Officers.

Sir,

Subject.—Exemption of Customs Duty on Stores Imported for use of State Government.

No. S.P.C. 34984-35130. I write to invite kind reference to letter No. F.9 (8) Econ. 52, dated 12th July 1952, from the Deputy Secretary to Government of India, Ministry of Stores, New Delhi, copy of which is annexed

hereto, ordering the refund of customs duty collected on State Property between the commencement of the constitution and the enactment of the Sea Customs and Central Excise and Salt (Amendment) Act, 1951. You are requested to prepare a statement of Imports made during the above period and duty paid thereon. The Collector of Customs, Madras, may be requested with a copy of the statement to refund the same. The relative bills of entry forwarded to you by the Stores Purchase Committee along with the other clearing bills may be kept ready in case the customs authorities require the same for their reference.

COPY OF THE LETTER.

"I am directed to state that the exemption granted to the property and income of the State from Union taxation, *vide* Article 289 (1) and (2) of the Constitution, is, in so far as Customs and Central Excise Duties are concerned, governed with effect from August 27th, 1951, by the Sea Customs and Central Excises and Salt (Amendment) Act, 1951. As a result, even goods imported by State Governments which were exempted from payment of duty by virtue of Article 289 (1) of the Constitution will again become liable to duty and will be governed by the provisions of the Sea Customs and Central Excises and Salt (Amendment) Act, 1951. I am to add that as the amending Act does not have retrospective effect, duties of customs and excise collected on State Property between the date of commencement of the Constitution and the enactment of the Sea Customs and Central Excises and Salt (Amendment) Act, 1951 are in contravention of the provisions of Article 289 (1) of the Constitution and claims for refund of duty paid are admissible."
